Astrology, Psychology & the Four Elements: An Energy :

The four elements are known in psychological astrology as the 'four functions' which govern the human psyche. Each element has a specific way of manifesting energy. All of this means that there are four ways of understanding the world, and four ways of perceiving life and they embody the concept of wholeness.

A modern classic and international best-seller that revolutionized modern understanding of astrology, this book is truly a pioneering work that established a new science of astrological psychology. It clearly presents a language of energy that enables astrology to be reliably used by those in the helping professions as well as by the general public. As Library Journal stated, "Transcending the boundaries of separate disciplines, this work represents a major distillation of astrological principles."

This recognized classic of modern astrology is truly a pioneering book. It established a new science of astrological psychology. It presents a language of energy that has enabled astrology to be widely and reliably used in the helping professions as well as by the general public. As Library Journal stated, "Transcending the boundaries of separate disciplines, this work represents a major distillation of astrological principles." This book relates astrology to modern psychology and explains the use of astrology as a practical method of universal forces. It clearly shows how to approach astrology with a real understanding of the energies involved. Part 1 of the book explains how astrology can be the most valuable psychological tool for understanding oneself and others. Analyzing the scientific, philosophical, and intuitive dimensions of astrology, it is oriented toward the layman with no astrological knowledge, astrology students and professionals, and those engaged in any form of the counseling arts. Part II deals specifically with the interpretation and practical application of astrological factors based on the actual energies involved (air, fire, water & earth). It presents a dynamic application of astrological knowledge that clarifies and illuminates traditional techniques and meanings by placing them in the perspective of understanding the vital energies inherent in all life processes.

Examines the traditional wisdom of astrology in the light of Jungian psychology, revealing the horoscope as a picture of our psychic structure and a key to self-knowledge and personal growth. Beginning with an analysis of Jung's terminology, including archetypes, the collective unconscious, and the theory of synchronicity, the author explores the striking correspondence between Jung's theory of psychological types and the traditional astrological elements.

Using a new language of energy based on the ancient "four elements" and in harmony with that used by the more advanced healing arts, renowned author Stephen Arroyo here explores how astrology as a language of energy can be astoundingly accurate and useful in illuminating individuals' energy exchange in all close relationships. The preface, author's note, introduction, and early chapters of Person-to-Person Astrology lay the groundwork for serious consideration of astrology as a significant discipline. The following chapters detail the influence of the four elements—Fire, Earth, Water, Air—on the 12 signs, with a particular emphasis on the rising sign (Ascendant). The author shows readers how to experiment by comparing birth charts, and explains, through detailed descriptions, people's psychological motivations and needs based on the positions of their Moon, Venus, and Mars. Appendices include astrological definitions, keywords, and sign tables that allow readers quick access to the basics. Written in the author's trademark clear, accessible style, Person-to-Person Astrology presents a new approach to finding fulfillment in any kind of relationship.

This widely praised and internationally acclaimed classic on the spiritual aspects of astrology, a continual best-seller since publication, has now been translated into more than 20 languages, including Chinese, Turkish, Russian, Serbian, & Romanian. It has been enthusiastically reviewed by Library Journal, Isabel Hickey, CAO Times, and dozens of others. Often ranked as "my favorite astrology book" in surveys, it is now, as it has always been, a profound book far ahead of its time that speaks to readers personally in a life-changing way.

In The Weiser Concise Guide to Practical Astrology, Priscilla Costello introduces the reader to the basic principles of modern astrology and unveils the secrets of this elegantly developed language of symbols. Costello shares with the reader both the philosophical and esoteric world view of astrology, while exploring the meanings of signs, planets, houses, and aspects on many levels, as well as its connection to psychology, religion and spirituality, and related esoteric studies. The Weiser Concise Guide to Practical Astrology serves as both a primer for the new student of astrology and a handy reference for the more seasoned practitioner. As complete as it is concise, this course of study delves deeply into the history and true spirit of astrology, making it accessible to all.

Thousands of readers worldwide have found personal meaning in Arroyo's bestselling books. Here, he shows how to develop reliable, in-depth interpretations for any birth chart.

In this eBook original, numerous practical as well as philosophical issues are explored. In an in-depth, wide-ranging interview appearing in book form for the first time, Stephen Arroyo answers questions about his early years in astrology, how he came to write some of his classic works, and his views on various central issues in astrology's current practice and potential future development. In another chapter, he provides concise new observations and guidelines that provide more insightful ways of understanding many factors in both individual birth charts and chart comparisons. In the other sections of this book, he discusses what astrology can contribute to psychology, how to understand the Ascendant, and possible explanations of transits' powerful effects. And importantly, this is the only book currently available that describes and explores his unique theory of "subtones" as an incisive, psychologically revealing method of achieving greater depth in understanding any birth chart. In short, utilizing "subtones" is a method of synthesizing the major chart factors in any person's chart in a simple, quick way that people at any level of astrological knowledge can easily learn and reliably use.
