with monthly and annual national summaries.

At a UN General Assembly Special Session in 1999, governments recognised unsafe abortion as a major public health concern, and pledged their commitment to reduce the need for abortion through expanded and improved family planning services, as well as ensure abortion services should be safe and accessible. This technical and policy guidance provides a comprehensive overview of the many actions that can be taken in health systems to ensure that women have access to good quality abortion services as

allowed by law.

This comprehensive text provides a systematic explanation of major conditions such as cancer, coronary heart disease, stroke and hypertension. It starts with a definition and then examines the epidemiology, aetiology and pathophysiology of the disorder as well as clinical signs, symptoms and treatments. Interventions to be made at various levels are explored, and clinical practice points are offered. This is essential reading for students and health professionals wishing to further their understanding of common disorders and to improve their
