[Updated September 1] AHIMA and AHA FAQ: ICD-10-CM/PCS ...

Coding is recognized as one of the core health information management (HIM) functions within healthcare. Due to the complex regulatory requirements affecting the health information coding process, coding professionals are frequently faced with ethical coding and coding-related challenges. The Standards of Ethical Coding are important established guidelines for any coding professional and are based on the American Health Information Management Association's (AHIMA's) Code of Ethics.

American Health Information Management Association ... - AHIMA

Two new guidelines were added to the ICD-10-PCS Coding Guidelines for FY2021. The first was B3.18: Excision/Resection followed by replacement. This coding guideline is further clarified and used when an excision or resection of a body part is followed by a replacement procedure.
