So, when you are trading binary options there are two different possible outcomes from the trade. Much like flipping a coin, the first outcome is that you win and the second option is that you lose. There cannot possibly be any other outcome. Unlike flipping a coin though the odds of you winning and losing are not 50/50. This is because binary options have an underlying asset that you wager on such as oil, gold or a currency exchange.

Which one of the following two offers is more appealing to you? Making a 70% return on an easy to understand, short time investment; Joining a coin-tossing game in which when you loose you pay 1 euro and when you win you gain 70 cents. Most people take the first offer and stay away from the second one. And yet ... they are basically the same! Welcome to the wonderful dual world of Binary Options! You can play binary options merely for entertainment and have great fun. You might even win a lot of money, provided that you get lucky and do not stay long, just like in Vegas... Or, you can trade binary options for fun and profit. This is what this book is about: it is a practical step-by-step guide that shows you how to trade systematically, how to identify profitable trading strategies, and how to select and use a sound money management system. In short, how to have fun and make money! Trading Binary Options for Fun and Profit: A Guide for Speculators walks you through what you need to know and do to trade binary options profitably. Since this it is not a work of fiction you will not be shown the magic formula that will make you rich in the blink of an eye. Rather you will gain the fundamental knowledge and tools needed to become a successful trader. You will learn to develop your own strategies for trading binary options profitably. Actually, a lot of what is covered here is easily adaptable to other types of trading such as the stock and Forex markets and even to sports betting. That said you do not need to have any prior knowledge of binary options, trading or math. Just start reading at the beginning and proceed sequentially. All what you will need to know is clearly spelled out. If you happen to have previous knowledge of a topic you can proceed directly to the next one without losing context. However if you are in doubt it is better to read through. This book is fluff free so it won't waste your time. Trading Binary Options for Fun and Profit: A Guide for Speculators starts by defining what a binary option is and how it works, the main types of trades available and the criteria you may want to consider when selecting a binary options broker. Then it proceeds to explain why using trading strategies makes sense and where you can find ideas to create or adapt them. Ultimately you will want to know if your trading strategy makes money so it also shows you how to calculate the magic number that tells it all: its Expectancy. Since trading strategies are built upon technical indicators a very brief overview of Technical Analysis follows and some very common indicators are presented. Next explains the MetaTrader platform and shows you how it can serve as your own cost-free research assistant and trading signal provider. It then goes over the details of developing and improving a trading strategy using Excel and Expert Advisors (no programming knowledge needed). Money Management comes next: you will get to know several systems and in the process learn how easy it is to do a Monte Carlo simulation to test them (or to test anything else). The book ends with an overview of the complete methodology and leaves you with some final trading suggestions. Finally, in the Appendixes you will find several resources that are made available for free to the buyers of this book: Six spreadsheets containing templates for the

Martingale, Paroli, D'Alembert, Fibonacci, Percentage of Bankroll and Kelly money management systems; Examples of trading strategies that backtested with winning percentages above 60%; An Expert Advisor that pops-out an alert window and plays a sound on MetaTrader each time a new trade is opened.

As someone who has spent hundreds of hours helping run a Binary Options trade and training room, I know how confusing the topic can be. Most people have heard of Forex, but are unsure how it differs from Binary Options. After participating in the traderoom, one of the questions I would hear frequently had been; "Are there any resources to help guide me, I'm confused!" It was after hearing this I decided to write a no-nonsense, practical guide for beginners. My goal was to help demystify many aspects of the trading world, and include everything I wish I had known before I started trading. Some of the questions I receive from our website are: Where can I download the necessary MT4 software? How to use the software? What are the best currency pairs to watch? What are the best times to trade? How do I recognize and avoid scams? How do I spot winning and losing setups? Just to name a few...

The first comprehensive guide to trading a unique class of options to manage risk and make smarter bets during volatile trading Providing savvy market players with a way to react quickly to event-driven opportunities and trends, exchange traded binary options are a unique type of derivative instrument offering fixed risk and reward. Available on four asset classes—stock index futures, commodity futures, Spot Forex and economic data releases—they are distinctly different from regular put/call options in that their pay-out structure offers only two potential outcomes, or settlement values: 0 or 100. The first guide focusing exclusively on this fast-growing sector of the options market, Trading Binary Options examines the key differences between regular options trading and binary options trading and describes how binary trading is done. It also gives you the lowdown on the most successful binary trading strategies and how and when they should be deployed. Outlines a rigorous approach to trading directionally around specific events, such as an earnings release, a shift in currencies, or a release of economic data Provides the first comprehensive coverage of an increasingly popular but poorly understood trading instrument Offers in-depth discussions of the six characteristics that distinguish binaries from other options and that make them such an attractive vehicle for hedging risk and improving returns

binary options is simplicity. There are only a few general rules to follow. One needs to participate in the platform in order to make a profit. It is important to read chapter one to understand the basics of binary options trading. Setting options in time or on a call will not be of much help if it isn't accompanied by serious knowledge and understanding of the market. It is, for this reason, I advise you to commit to mind the strategies in second chapter to become more familiar with the process of analyzing the market. Automatic trading has become extremely popular in recent years, especially among traders who have had no previous experience in binary options. Inexperienced traders always suggest the use of trading software. This is because it's the best way to acquaint yourself with the methods and strategies to binary options and gain initial experience. I advise you to read the section about trading software in chapter one. It is necessary to pay attention to a number of traps that lurk around for traders, who are just trying to choose the best possible broker for themselves. It is included to regulate the market for binary options by regulatory authorities. Regulated brokers have higher safety standards. Brokers accept regulated status as being necessary for business since more traders prefer to use regulated brokers. This gives traders the assurance that the broker is part of a serious company; that they operate in accordance to the laws of the market for being licensed. Relative to most other types of financial investing, binary option trading is a newer phenomenon which is rapidly gaining in popularity. One of the features that make this type of trading so popular is the potential to make money at a much faster rate. While normal stock investment involves the actual purchase of a stock that can then be sold for a profit after gaining value, binary options trading operates like a simple contract. The purchaser of a binary option agrees to two things: (a) a time frame and (b) whether a stock is going to go up or down in value. To be successful in binary options trading, you must be able to accurately predict whether a stock price will end up trading at a higher price, or a lower price, over a given period of time. Binary options trading can also be conducted based on the performance of a specific fund, currency, or index. If you want to find success in binary options trading, you need to develop skills in order to analyze and predict market trends, so that you end up getting paid out more than you lose. This book provides a step-by-step approach to profiting in binary options trading, including a multitude of tips and tricks that will help you keep your trades "in the money." Let's get started!
